

PRO 702

Two-way anti-return pulley of exceptional qualities, designed for lifting heavy loads. The lower auxiliary anchorage and independent pulley and roller mechanisms allow us different configurations in counterweight and hoist maneuvers.

Norm	EN 12278, EN 567
Weight	663 g
Resistance	40 kN
Rope diameter	10-13 mm
Supported weight	800 Kg
Block	Bidirectional

MATERIAL

Body	Aluminium
Bearing	Aluminium
Finishing	Anodized
